Briefing of Dr. Brueckner by []

1956
At 1020 on Tuesday 12 June Dr. Brueckner received a briefing on the satellite intelligence services from [] the briefing was informal and consisted primarily of exchange of information on cases in Western Germany run by the satellite services. The WIN, Maria KNUTH, Elli KINDERMANN, and Karel ANDRES cases were discussed--the former in considerable detail.

[] mentioned that CIA had received a considerable amount of information on the Polish Intelligence Service through debriefing of SWIATLO, Polish defector, and offered to send Brueckner a copy of the study based on these debriefings.

[] also discussed attempts by satellite intelligence services to penetrate emigre groups working for the West. He noted that the Poles are exceedingly active in this work, and spent considerable effort in their operations against the Refugee Screening Center (REBOP House) in Berlin. [] pointed out that the Czechs did not have as active a penetration program as the Poles appear to have. Brueckner, however, commented that Radio Prague has more than once come up with a person who claims to have been recruited by the West and doubled back into the CSR. (The Zwolsky case was not mentioned specifically, although Brueckner may have had this in mind.)

Mention was made of activity of the satellites in the Hamburg area and the use of the Elbe as a communication link in getting materials and bodies in and out of CSR.

Brueckner mentioned that the border police were concerned with satellite infiltration into West Germany. However, he did not seem to be too perturbed at the role the SG should play in such cases.

At noon Brueckner, [] adjourned for lunch. Brueckner and [] had an interesting discussion on German poetry, literature, and the culture and activity of Schleswig Holstein.
